Landing Page (Oasis Infobyte)   Jan 2024 – Jan 2024

The Landing Page Design and Development Internship at Oasis Infobyte offers a unique blend of creativity and technical expertise. Interns not only gain practical skills but also contribute to projects that have a tangible impact on the company's online presence. In this project I use HTML and CSS to design this web page. This internship is an ideal launchpad for individuals aspiring to excel in the dynamic field of web development and design.

Portfolio Website (Oasis Infobyte)   Jan 2024 – Jan 2024

The Portfolio Website Development Internship at Oasis Infobyte provides interns with the tools and knowledge needed to create a standout online presence. By blending design principles, coding skills, and personal branding, interns not only enhance their technical abilities but also position themselves as professionals ready to make a meaningful impact in the web development and design industry. In this project I use HTML and CSS to design this web page. This internship serves as a stepping stone for individuals looking to establish a strong digital footprint in their chosen field.

Temperature Converter (Oasis Infobyte)   Jan 2024 – Jan 2024

The Temperature Converter Web Application Internship at Oasis Infobyte provides interns with a solid foundation in web development by focusing on a specific and practical project. The experience gained in designing user interfaces, implementing front-end development, and ensuring functionality prepares interns for future challenges in the dynamic field of web development and design. In this project I use HTML, CSS and some concept of JavaScript. This internship serves as a stepping stone for individuals looking to build a career in creating innovative and user-centric web applications.
